## 2018 Geneva Motor Show: Renault shows new urban mobility concept, brings new generation engines to renewed range

- **World premiere of Renault EZ-GO concept opens window on urban shared mobility.**
- **New R110 motor for Renault ZOE 2018 model-year, Europe's top selling electric vehicle.**
- **New 1.3 Energy TCe petrol engine comes to Renault Captur and Renault Scenic.**
- **Talisman brings new style with S-Edition and Energy TCe 225 petrol engine.**

**Geneva International Motor Show, 6th March 2018** – Renault continues its celebration of 120 years of making life easier for customers with a spotlight at this year's Geneva International Motor Show on driving pleasure and new engines in the ZOE, Captur, Scenic and the Talisman.

In a world premiere, Renault will unveil its urban mobility concept car EZ-GO, on **Tuesday 6th March at 9 a.m.** on Renault's stand (Hall 4) during the press conference, broadcast live on [www.groupe.renault.com](http://www.groupe.renault.com)).

The complete press kit for EZ-GO concept will be available on the media website [media.groupe.renault.com](http://media.groupe.renault.com) from 9.15 a.m.

### **The 2018 ZOE and its new R110 motor**

The 2018 version of the ZOE, Europe's best-selling electric vehicle, features the R110, its new electric 80 kW motor, providing more power and even greater driving enjoyment. The R110 produces an additional 12 kW of power with the same overall dimensions and the same weight as its predecessor, the R90 motor. This allows the driver to benefit from greater acceleration on express ways, shaving almost two seconds off its 80-120 km/h time.

The 2018 model of the ZOE brings also new connectivity with Android Auto compatibility and has a new exclusive and stylish, dark, metallic body colour: Blueberry Purple.

### **New 1.3 Energy TCe petrol engine**

Renault unveils its new 1.3 Energy TCe engine in the Renault Scenic and Renault Captur. This recently released new-generation engine has been developed jointly by the Alliance and its partner Daimler. It complies with the two partners' highest quality standards and offers a wider range of power than the previous TCe engine, more torque (in particular at low speeds), lower CO<sub>2</sub> emissions and reduced fuel consumption.

### **Talisman S-Edition**

The Renault Talisman range has expanded with the addition of the S-Edition, an exclusive, more stylish model and the first with the new 1.8 TCe 225 petrol engine. This model has a sporty interior - black overstitched in red - and all the latest equipment. It also includes pack 4-Control damping control and new 19" aluminium rims as standard. The Talisman S-Edition will be available in Europe from September 2018.
