12 NOVEMBRE 2008

New CO2 homologations for Renault Koleos

Since the end of September 2008, Renault Koleos has an improved cooling system. This evolution enables to have better fuel consumption and lower CO2 emissions on all the engines line-up. In the French market, 2.0 dCi 175 engine gets a environmental malus discount from 1,600 euros to 750 euros.

New homologation figures are displayed on the chart below.
